PART I

Item 1. Financial Statements.

Third Quarter 2005 Report on Form 10-QSB

INFORMATION ANALYSIS INCORPORATED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

The accompanying consolidated financial statements have been prepared by Information Analysis Incorporated ("IAI" or the "Company") pursuant to the rules and regulations of the Securities and Exchange Commission. Financial information included herein is unaudited; however, in the opinion of management, all adjustments (which include normal recurring adjustments) considered necessary for a fair presentation have been made. Certain information and footnote disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted pursuant to such rules and regulations, but the Company believes that the disclosures made are adequate to make the information presented not misleading. For more complete financial information, these financial statements should be read in conjunction with the audited financial statements and notes thereto for the year ended December 31, 2004 included in the Company's annual report on Form 10-KSB. Results for interim periods are not necessarily indicative of the results for any other interim period or for the full fiscal year.

2. Going Concern

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Although we have an accumulated deficit of \$12,773,000, we achieved net income of approximately \$471,000 for the nine months ended September 30, 2005. Our financial position, however, remains challenged.

Our credit facility expires December 16, 2005, and is not expected to be renewed by the current lender. We are in negotiations with other lenders for a new credit facility or alternative financing. Should we fail to secure a successor credit facility, we may periodically be required to delay timely payments of our accounts payable.

In addition to obtaining new financing and sources of capital, our ability to continue operations is contingent upon sustaining our profitable operations, improving our gross margins, and reducing overhead and general and administrative costs. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

3. Stock-based Compensation

The Company has an incentive stock option plan, which became effective June 25, 1996. The plan provides for the granting of stock options to certain employees and directors. The maximum number of shares for which options may be granted under the plan is 3,075,000. Options expire no later than ten years from the date of grant or when employment ceases, whichever comes first, and vest over periods determined by the Board of Directors. The average vesting period for options granted in 2005 was eighteen months. The exercise

Third Quarter 2005 Report on Form 10-QSB

3. Stock-based Compensation (cont.)

price of each option equals the quoted market price of the Company's stock on the date of grant. The stock option plan is accounted for under Accounting Principles Board (APB) Opinion No. 25. Accordingly, no compensation has been recognized for the plan. Had compensation cost for the plan been determined based on the estimated fair value of the options at the grant date consistent with the method of Statement of Financial Accounting Standards (SFAS) No. 123, the Company's net income and earnings per share would have been:

		Three months ending September 30,

4. Net Income Per Share

Earnings per share are presented in accordance with SFAS No. 128, "Earnings Per Share." This statement requires dual presentation of basic and diluted earnings per share on the face of the income statement. Basic earnings per share excludes dilution and is computed by dividing income available to common shareholders by the weighted-average number of shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock, except for periods when the Company reports a net loss because the inclusion of such items would be antidilutive.

4. Net Income Per Share (cont.)

The following is a reconciliation of the amounts used in calculating basic and diluted net income per common share.

	Net Income	Shares	Per Shai Amoun
Basic net income per common share for the three months ended September 30, 2005:			
Income available to common stockholders	\$250,576	10,301,494	\$ 0.0

Item 2. Management's Discussion and Analysis of Financial Condition or Plan of Operation

Cautionary Statement Regarding Forward-Looking Statements

This Form 10-QSB contains forward-looking statements regarding the Company's business, customer prospects, or other factors that may affect future earnings or financial results that are subject to the safe harbor created by the Private Securities Litigation Reform Act of 1995. Such statements involve risks and uncertainties which could cause actual results to vary materially from those expressed in the forward-looking statements. Investors should read and understand the risk factors detailed in the Company's 10-KSB for the fiscal year ended December 31, 2004 and in other filings with the Securities and Exchange Commission.

Three Months Ended September 30, 2005 Versus Three Months Ended September 30, 2004

Revenue

Our revenues in the third quarter of 2005 were \$2,629,062, compared to \$2,438,440 in the third quarter of 2004, an increase of 7.8%. Professional services revenue was \$2,371,496 versus \$2,255,127, an increase of 5.2%, and product revenue was \$257,566 versus \$183,313, an increase of 40.5%. The increase in professional services revenue is due primarily to new contracts on which work began in 2005. The increase in product revenue is primarily due to sales of Micro Focus products under contracts which commenced in 2005. Adobe and Micro Focus products, as well as our ICONS suite of software conversion tools, are generally sold in conjunction with professional services over a specified contract term. We continue to have a steady pipeline of bidding opportunities for new and follow-on business. Professional services revenues are expected to maintain their current levels in the remainder of 2005, and product revenues, which are largely driven by one-time purchases, will increase due to a large product order in the fourth quarter of 2005 of \$750,000.

Gross Margins

Gross margin was \$667,809, or 25.4% of sales, in the third quarter of 2005 versus \$486,002, or 19.9% of sales, in the third quarter of 2004. Of the \$667,809 in 2005, \$618,651 was attributable to professional services and \$49,158 was attributable to software sales. Our gross margin percentage was 26.1% for professional services and 19.1% for software sales for the third quarter of 2005. In the third quarter of 2004, we reported gross margins of 21.2% for professional services and 4.1% for software sales. The increase in professional services gross margin percentage is largely due to improve margins related to new commercial contracts and higher margins on some of our electronic forms services. Also, we achieved cost savings by replacing some of our independent contractors with employees on current contracts and by hiring employees to work on new contracts as opposed to utilizing independent contractors. The increase in software sales gross margin percentage is due to sales of higher-margin software products.

Selling, General and Administrative

Selling, general and administrative expenses were \$412,893, or 15.7% of revenues, in the third quarter of 2005 versus \$416,803, or 17.1% of revenues, in the third quarter of 2004. We continue to control expenses and reduce them wherever practical, and we believe that only marginal increases in expenses will result from increases in the number of contracts under which we operate. We anticipate an increase in expenses beginning in 2006 resulting from our need to comply with Section 404 of the Sarbanes Oxley Act. We have not yet determined the projected level of such increase.

Profits

We generated income from operations of \$254,916 in the third quarter of 2005 compared to \$359,101 in the third quarter of 2004. Net income for the third quarter of 2005 was \$250,576 versus \$354,092 for the same period in 2004. In the third quarter of 2004, however, we recovered past due receivables, all of which had been fully reserved, of \$289,902, net of collection costs. When we compare net income without regard to the effect of the recovery of the past due receivables, the net income for the third quarter of 2005 increased by \$186,386 compared to the third quarter of 2004. This increase is primarily related to increased margins on professional services sales.

Nine Months Ended September 30, 2005 Versus Nine Months Ended September 30, 2004

Revenue

Our revenues in the first nine months of 2005 were \$7,822,086, compared to \$6,712,282 in the first nine months of 2004, an increase of 16.5%. Professional services revenue was \$6,857,975 versus \$6,314,575, an increase of 8.6%, and product revenue was \$964,111 versus \$397,707, an increase of 142.4%. The increase in professional services revenue is due primarily to new contracts on which work began in 2005. The increase in product revenue is primarily due to a particularly large sale of Adobe products and to sales of Micro Focus products under contracts which commenced in 2005. Adobe and Micro Focus products, as well as our ICONS suite of software conversion tools, are generally sold in conjunction with professional services over a specified contract term. We continue to have a steady pipeline of bidding opportunities for new and follow-on business. Professional services revenues are expected to maintain their current levels in the remainder of 2005, and product revenues, which are largely driven by one-time purchases, will increase due to a large product order in the fourth quarter of 2005.

Gross Margins

Gross margin was \$1,736,866, or 22.2% of sales, in the first nine months of 2005 versus \$1,299,736, or 19.4% of sales, in the first nine months of 2004. Of the \$1,736,866 in 2005, \$1,586,094 was attributable to professional services and \$150,772 was attributable to software sales. Our gross margin percentage was 23.1% for professional services and 15.6% for software sales for the first nine months of 2005. In 2004, we reported gross margins of 19.3% for professional services and 21.0% for software sales. The increase in professional services gross margin percentage is largely due to improved margins related to new commercial contracts and higher margins on some of our electronic forms services.

Selling, General and Administrative

Selling, general and administrative expenses were \$1,253,272, or 16.0% of revenues, in the first nine months of 2005 versus \$1,097,314, or 16.3% of revenues, in 2004. The increase in these expenses is due to increased costs of local area network administration, including the upgrade of equipment and software, and the declaration of performance bonuses for executive officers. We continue to control expenses and reduce them wherever practical, and we believe that only marginal increases in expenses will result from increases in the number of contracts under which we operate.

Profits

We generated income from operations of \$483,594 in the first nine months of 2005 compared to income from operations of \$492,324 in the same period in 2004. Net income for the first nine months 2005 was \$470,073 versus \$466,440 for 2004. In the third quarter of 2004, however, we recovered past due receivables, all of which had been fully reserved, of \$289,902, net of collection costs. When we compare net income without regard to the effect of the recovery of the past due receivables, the net income for the first nine months of 2005 increased by \$293,535 compared to the first nine months of 2004. This increase is primarily related to increased margins on professional services sales.

Liquidity and Capital Resources

Through the first nine months of 2005, we financed operations from current collections and through our bank line of credit. Cash and cash equivalents at September 30, 2005 were \$144,865 compared to \$115,917 at December 31, 2004.

We have a revolving line of credit with a bank providing for demand or short-term borrowings of up to \$500,000. The line of credit is callable on demand, and next expires on December 16, 2005. We do not expect our current lender to renew our credit facility. We are in negotiations with other lenders for a new credit facility or alternative financing. We believe we will have a new credit facility in place before the current expiration date. Should we fail to secure a successor credit facility, we may periodically be required to delay timely payments of our accounts payable.

As of September 30, 2005, we had \$113,726 outstanding on our line of credit versus an outstanding balance of \$219,650 at December 31, 2004. We believe that our profitability will continue through the remainder of 2005 and that cash flows from collections should enable us to continue to finance our operations. Cash flow from operations may not be sufficient to provide additional working capital necessary to repay certain past due payables.

We have no material commitments for capital expenditures.

Item 3. Controls and Procedures

Third Quarter 2005 Report on Form 10-QSB

(a) Evaluation of Disclosure Controls and Procedures. As of the end of the period covered by this report, with the participation of the Company's management, the Company's principal executive officer and principal financial officer conducted an evaluation (as required by paragraph (b) of Rule 13a-15 or Rule 15d-15 under the Exchange Act) of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) or Rule 15d-15(e) under the Exchange Act). Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are effective in timely alerting them to material information required to be included in our periodic SEC reports. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

(b) Changes in Internal Control over Financial Reporting. There have been no significant changes in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 or Rule 15d-15 under the Exchange Act that occurred during the Company's last fiscal quarter that has materially affected, or is reasonably likely to affect, the Company's internal control over financial reporting. There have been no significant changes subsequent to the date of the evaluation, nor were there any significant deficiencies or material weaknesses in the Company's internal controls. Accordingly, no corrective actions were required or undertaken.

PART II - OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(a) On September 30, 2005, \$125,000 of convertible notes we issued in 2001 matured. Holders of \$80,000 of the notes converted their notes into 320,000 shares of our common stock at a price of \$.25 per share. The remaining \$45,000 which were not converted were paid in full. We relied upon Section 4(2) of the Securities Act of 1933, as amended, to exempt the issuance of the notes and the shares issued upon conversion of the notes from the registration requirements of such act.

Item 6. Exhibits and Reports on Form 8-K

- (a) Exhibits:
 - See Exhibit Index on page 14.

SIGNATURES

In accordance with the requirements of the Exchange Act of 1934, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

RULE 13a-14(a) / 15d-14(a) Certification

I, Sandor Rosenberg, certify that:

- 1. I have reviewed this quarterly report on Form 10-QSB of Information Analysis Incorporated;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this report;
- 4. The small business issuer's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the small business issuer and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
- 5. The small business issuer's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.

EXHIBIT 31.2

RULE 13a-14(a) / 15d-14(a) Certification

I, Richard S. DeRose, certify that:

- 1. I have reviewed this quarterly report on Form 10-QSB of Information Analysis Incorporated;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this report;
- 4. The small business issuer's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the small business issuer and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
- 5. The small business issuer's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.
